## PROFESSIONAL SUMMARY

**Frontend Developer** with **3 years of hands-on experience** in building responsive, scalable, and high-performance web applications using **ReactJS, JavaScript, and TypeScript**. Proficient in **frontend principles**, state management, API integration, and performance optimization. Passionate about writing **clean, maintainable, and reusable code**, following modern UI/UX best practices, and collaborating in cross-functional teams to deliver seamless user experiences.

## WORK EXPERIENCE

**Borderfree Technologies — Frontend Developer**                                     *Feb 2022 - Sep 2024*

- **Built Scalable Applications:** Developed high-quality frontend apps with **ReactJS React Native and Type-Script**, improving scalability and performance by **50%**.
- **Responsive Intuitive UIs:** Worked closely with designers and product teams to deliver **responsive interfaces** aligned with modern **frontend principles**.
- **State Management Expertise:** Used **Redux, Zustand, and Context API** to manage complex application state, enhancing maintainability and modularity.
- **Optimized Web Performance:** Implemented **code splitting, lazy loading, and memoization**, reducing load times by **35%**.
- **Reusable Components Clean Code:** Built a component library using **Tailwind CSS, Styled Components**, and **CSS-in-JS**, streamlining development across the team.
- **RESTful API Integration:** Integrated **REST APIs and GraphQL** for data-driven features, ensuring robustness and scalability.
- **Collaboration Debugging:** Collaborated with backend teams and resolved issues using **Jest, Cypress, React Testing Library**, boosting code quality and stability.
- **Version Control CI/CD:** Utilized **Git, Bitbucket**, and CI/CD pipelines for version control and deployment efficiency.

## EDUCATION

**NM Institute of Engineering and Technology, Bhubaneswar**                         *July 2017 - April 2021*

Integrated 4Yrs. B.Tech (Computer Science), 8.6 CGPA

**Final Year Project**: College Library Management (JavaScript, SQL, Node.js, HTML, CSS)

## PROJECTS

[Portfolio](#)
- Developed a mobile-responsive portfolio with seamless **user experience and UI consistency**.
- Integrated **Email.js** for direct client communication, improving engagement by **30%**.

[Beast11](#)
- Built with **TypeScript, React.js, and Next.js** for a robust, scalable fantasy cricket platform.
- Features team creation, player stats tracking, and real-time score updates for a dynamic user experience.

[Food Recipe App](#)
- Created a feature-rich recipe application using **React**, **RESTful APIs**, and category-based filters.
- Implemented responsive design and performance optimizations for seamless UX.

## SKILLS AND EXPERTISE

**Programming Languages/Frameworks**     JavaScript, TypeScript, React Native ReactJS, Next.js, Redux, Zustand, Tailwind CSS, Material UI, HTML, CSS, SASS

**Tools/Technologies**     Git/GitHub, Bitbucket, Vercel, Firebase, Postman, Webpack, Jest, Cypress, Storybook, CI/CD, OAuth, JWT, REST APIs, GraphQL, WebSockets

**Additional Knowledge**     Frontend principles, Scalable architecture, Performance optimization, Reusable components, Modern UI/UX best practices
